PROFESSIONAL SUMMARY

Product-oriented professional with 2+ years of experience across product operations, product management, and cross-functional delivery in fintech and AI. Proven track record: reduced payout failure rates by 40%, cut support volume by 35%, and shipped AI products driving 28% lift in user engagement. Combines deep fintech operational instincts — built from 500+ merchant escalations at FINMO — with structured PM craft from the Ayuda cohort. Strong in root-cause analysis, funnel optimisation, user research, and translating operational patterns into roadmap decisions. Experienced in SQL, Jira, Figma, Notion, and agile delivery.

EXPERIENCE

Product Operations Lead

FINMO — Fintech / Payments

Jan 2024 – Present · Bangalore · Reduced payout failure rate by 40% through product-ops driven fixes

- Owned end-to-end resolution of 500+ Tier 1 & 2 merchant cases monthly, achieving 95% SLA adherence and cutting average resolution time from 48 hrs to 18 hrs through structured root-cause analysis
- Identified 3 recurring payout failure patterns (BSB mismatches, EMQ failures, settlement delays) that led to a product fix reducing payout failure rate by 40% across APAC corridors
- Redesigned 12 support SOPs and proposed 4 automation workflows, reducing repetitive ticket volume by 35% and freeing 15 hrs/week of team bandwidth
- Collaborated with Product, Engineering, and Compliance to ship a dashboard fix reducing merchant-reported data discrepancies by 60% and improving NPS by 18 points
- Built internal knowledge base and escalation matrix adopted across 3 teams, reducing cross-functional miscommunication by 50%

Product Manager Intern

Palmier AI — AI / SaaS

Feb 2025 – May 2025 · Shipped AI chatbot driving 28% lift in user engagement

- Built and launched a marketing website using Framer — 3x improvement in page load speed and 22% increase in organic traffic in 8 weeks
- Designed and deployed an AI chatbot using Voiceflow that increased user engagement by 28% and reduced support queries by 30%
- Led product discovery for 3 AI Agent use cases, writing PRDs and user stories that secured leadership alignment for Q3 prioritisation
- Maintained single-source-of-truth product wiki on Notion ensuring 100% alignment across design, engineering, and marketing

Associate Product Manager

P & F Solutions — EdTech

Jun 2024 – Dec 2024 · Shipped online assessment module cutting time-to-market by 30%

- Defined user stories, acceptance criteria, and business requirements for an online assessment platform, reducing scope ambiguity by 45% and dev rework by 25%
- Managed sprint planning across a 6-member team, improving on-time delivery rate from 65% to 90% over 3 sprints
- Conducted competitive benchmarking of 5 platforms; synthesised findings into a feature prioritisation matrix that shaped the MVP roadmap

Business Analyst Intern

Modus ETP — Consulting

Jan 2024 – Apr 2024 · Built KPI framework improving reporting visibility by 50%

- Benchmarked asset management approaches across 8 retail clients, contributing to a standardised reporting framework improving KPI visibility by 50%
- Designed a dashboard prototype reducing manual reporting effort by 12 hrs/month for senior stakeholders

PRODUCT CASE STUDIES (AYUDA PM COHORT)

Zepto — Slot Commitment Feature

Validated peak-hour cart abandonment opportunity. Ran 4 user interviews, identified 6 problem clusters. Root insight: users need predictable slots, not faster ones. Recommended 'Commit My Evening Slot' — proactive 5 PM slot reservation.

Razorpay — Checkout Identity Layer

Diagnosed WhatsApp checkout abandonment in under 3 seconds. P0: no merchant identity + wrong UPI stack at first load. Designed adaptive checkout auto-configured from existing KYC data. Target: 28% → 42% completion rate.

Spotify — Taste Passport

Identified behaviour-change root cause behind music discovery drop-off. Designed standalone weekly module using anchor songs as psychological bridge to new genres. Target: 8% → 35% cross-genre listen rate.

Slack — Structured Issue-Raise with DRI Routing + AI Summary

Full PRD: /issue modal with auto DRI-tagging, AI summary context, and Huddle recording. Target: -20% median time-to-first-response. Strategic fit: Slack enterprise retention OKR.

Uber MedConnect — Healthcare Logistics + NEMT

Full product strategy pitch. Sized ₹500–1000 Cr opportunity in ₹20,000 Cr India healthcare logistics market. Designed two business models; recommended pay-per-use marketplace. MVP: Apollo Hospitals, Bangalore.
