SUMMARY

Associate Product Manager with 2+ years across fintech payments, AI/SaaS and EdTech, owning products from discovery to launch. Diagnosed 3 recurring payout break points from 500+ monthly merchant cases and drove the fix that took payout failure rate from 6.8% to 4.1% across APAC corridors. Also shipped an AI assistant lifting engagement 28% and an assessment module that cut time-to-market 30%. Targeting APM, product strategy and founder's office roles in fintech and AI.

EXPERIENCE

- Associate Product Manager, Product Ops - FINMO (Fintech)** Jun 2025 – Present
Cut payout failure rate 40% across APAC corridors *Bangalore*
- Cut payout failure rate from 6.8% to 4.1% across APAC corridors by isolating 3 recurring break points.
 - Built a merchant issue taxonomy from 500+ monthly cases; top 5 clusters shaped 2 quarterly roadmap bets.
 - Shipped a merchant dashboard fix that cut data discrepancies 60% and lifted merchant NPS from 24 to 42.
 - Specced 4 automation workflows, cutting repetitive ticket volume 35% and freeing 15 hrs/week of squad time.
 - Drove median resolution time from 48 hrs to 18 hrs at 95% SLA adherence across 3 escalation teams.
- Product Manager Intern - Palmier AI (AI Agents / B2B SaaS)** Feb 2025 – May 2025
Shipped AI assistant driving 28% engagement lift *Remote*
- Shipped an AI assistant on Voiceflow that lifted user engagement 28% and deflected 30% of inbound queries.
 - Led discovery on 3 AI agent use cases, writing PRDs that won leadership sign-off and Q3 roadmap slots.
- Associate Product Manager - P&F Solutions (EdTech)** Jun 2024 – Dec 2024
Shipped assessment module 30% faster to market *Bangalore*
- Shipped an online assessment module 30% ahead of timeline, cutting dev rework from 25% to 9%.
 - Ran 12 user interviews surfacing 4 workflow gaps that became the module's most-adopted features.
 - Benchmarked 5 platforms into a RICE-scored matrix that set MVP scope and cut 2 low-value features.
- Product Analyst Intern - Modus ETP (Consulting)** Jan 2024 – Apr 2024
Built KPI framework used across 8 clients *Bangalore*
- Built a standardised KPI framework from benchmarking 8 retail clients, lifting reporting visibility 50%.

PRODUCT CASE STUDIES

- Razorpay – Checkout Identity Layer** | *Funnel diagnosis, PRD, Fintech*
- Traced WhatsApp checkout drop-off to missing merchant identity; adaptive KYC-based checkout, 28% to 42%.
- Zepto – Slot Commitment** | *User research, Opportunity sizing, Quick commerce*
- Ran 4 interviews on peak-hour abandonment; slot reservation modelled to recover 18% of lost carts.
- Slack – Structured Issue-Raise with DRI Routing** | *Full PRD, B2B SaaS*
- Wrote a full PRD for an /issue modal with auto DRI-tagging and AI summaries: 20% faster first response.
- Uber MedConnect – Healthcare Logistics** | *Market sizing, Business model, Strategy*
- Sized NEMT in India at \$1.4B; recommended a pay-per-use marketplace over a subscription model.
